

JDI PARTNERSHIP

NBCSA, in Partnership with JDI, have created an eLearning platform for yearly site orientations for Irving Paper, Irving Pulp and Paper, Lake Utopia, and Irving Tissue. As many of you are aware, contractors and their employees need to have the appropriate site orientation completed before being allowed on site. All users need to do is register with NBCSA's registration department to request a user ID for the site location they require. The courses are the same site orientation videos and tests offered by JDI. At the end of the course, users will be required to print the certificate from our system as proof of completion for JDI. Please note: NBCSA will not be sending out passport stickers for this program, but records will be available on our Safety Net system. We have also arranged with ISN to include these certificates in regular uploads to their ISNetworld system in the future. The fee that we have created for these site orientations is \$10.00 per course per student. This is another step in the "job-ready" trend that we have been working on in the last few years.

SCHEDULING

If you are looking to take a course with us but are unsure of the dates that we offer, you can view our full calendar on our website!

Have a look and see if a date works with you then give us a call: 1-506-627-1477 or send us a email:
registration@nbcsa.ca

Keeping up to date:

- All Applications are now fillable on the website for any form.
- Meetings have started for the planning of this year's Professional Development Day for Fall 2022 being held in Moncton.
- Meetings are still ongoing for the harmonization of the COR® Audit instrument. Hopes of implementing the new version in the Summer of 2022.

Steps for Life

Walking for Families of Workplace Tragedy is the flagship fundraising event for Threads of Life. Since 2005, Steps for Life has not only increased health and safety awareness but has also raised more than \$6.5 million to provide support programs and services to families affected by a workplace life-altering injury, occupational disease or fatality.

NBCSA is proud to be a community sponsor of Steps for Life this year!

You can register for the community walk on the Steps for Life website, it is very easy to do. Registration will remain open until the end of the community's walk day, May 1st. If anyone wants to register after a community event is held, they can join the National Online Event - it stays open the whole month of May.

If you would like to donate to the great cause you are still able to, donations for the community will remain open until May 31.
