

National Health & Safety Administrator (NHSA™)

The objective of the NHSA™ program is to provide formal training for the administrator of a health and safety program, who does not possess a minimum of 3 years construction field experience. The NHSA™ designation meets the national standard requirements and verifies that a person has met the training, and written performance measurements set out by the Canadian Federation of Construction Safety Associations (CFCSA). The NHSA™ can provide valuable assistance to employers and their Construction Safety Officer(s) in the administration and implementation of the company's health and safety program. This designation indicates to employers that the participant has attained theoretical knowledge in various health and safety management applications and principles.

This designation expires every three years and is required to be maintained by showing proof of continuous training, updating compulsory applications as noted below.

National Health & Safety Administrator (NHSA™)

Who am I?

If you are an individual who is interested in protecting the health and safety of individuals who work in the construction industry, being a **National Health & Safety Administrator** is the position for you.

What do I do?

- Assist management in the administration, implementation, and maintenance of a company's safety system.
- Review and identify various health and safety issues specific to the work site and company operations.
- Communicate effectively with Government, Occupational Health and Safety Officers, management, and workers on the job.
- Assist with the facilitation of Early and Safe Return to Work Programs and development of Return-to-Work Plans.
- Promote Health & Safety by setting a good example.

How do I advance?

To become a **National Health & Safety Administrator (NHSA™)**, you must complete the required compulsory courses, submit a completed application, and obtain 75% or better on the National and Provincial Exams.

In order to submit an application to be eligible for the NHSA™ testing day, participants must:

- Complete all required courses. (9 compulsory and 3 electives of your choice listed on application)
- Provide proof of certificate renewals or transcripts or equivalent course credit for relevant courses. (if applicable)
- Include signed Code of Ethics

Testing Requirements

There are 4 testing days a year within New Brunswick at various locations throughout the province. Once your application has been submitted and approved you will be required to pay the application fee of \$50.00 plus HST and once paid you will be eligible for registering into the testing day of your choice

National and Provincial exam

All participants will be expected to complete both of these exams as part of the NCSO® process.

Successful exams require 75% or better on both the National / Provincial Exam. More information will be provided once registered.

National Health & Safety Administrator (NHTSA™) are in demand. By having the right tools and the willingness to expand your education, where you go and what you do is limitless. All industries require dedicated people to ensure the health and safety of their workforce.
